PROFESSIONAL SUMMARY

Python-oriented software developer with a strong foundation in enterprise systems and backend logic. Skilled in Python, SQL, and data structures, with hands-on exposure to large-scale, mission-critical systems through mainframe project work. Possesses strong analytical and problem-solving abilities, driven by a keen interest in backend development, automation, and building scalable software solutions.

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions

Aug 2024 – Apr 2026

Programmer Analyst – HCSC Healthcare Project

- Developed, maintained, and optimized enterprise healthcare systems utilizing COBOL, JCL, VSAM, and DB2.
- Analyzed complex system outputs, debugged batch jobs, and ensured strict data accuracy across multiple modules.
- Collaborated with senior developers and cross-functional teams to swiftly resolve production issues and improve operational workflows.

Cognizant Technology Solutions

Dec 2023 – May 2024

GenC Intern

- Completed rigorous technical training in COBOL, JCL, VSAM, DB2, and enterprise batch processing systems.
- Strengthened core programming fundamentals, debugging techniques, and end-to-end system analysis skills.

PROJECTS

Intelligent Multimodal Biometrics System

- Engineered a biometric recognition system integrating multiple traits, including palmprint, finger-knuckle, and fingernail.
- Implemented advanced feature extraction and classification algorithms to ensure high-accuracy identity recognition.

Spotify Web Clone | [GitHub](#)

- Built a highly responsive and visually accurate Spotify UI clone using HTML and CSS.
- Focused on creating modular, reusable UI components for a seamless frontend experience.

Digital Phone Book | [GitHub](#)

- Developed a robust, command-line-based Python application for managing contacts.
- Implemented efficient add, search, update, and delete functionalities to streamline user interactions.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C, Basic Java

Mainframe Technologies: COBOL, JCL, VSAM, DB2

Web & Databases: HTML, CSS, SQL

Tools & Platforms: Git, Node-RED, Proteus, TinkerCAD

Core Competencies: Data Structures, Backend Development, Software Engineering, Problem Solving

EDUCATION

Shri Ramswaroop Memorial College of Engineering & Management

2019 – 2023

B.Tech – Electronics and Communication Engineering

CGPA: 8.0

Lucknow Model Public Inter College

2017 – 2018

Higher Secondary Education

83%

CERTIFICATIONS

- Python Programming (Coursera) | Data Analytics with Python (NPTEL)
- Enhancing Soft Skills (NPTEL) | Generative AI Fundamentals
- Prompt Engineering Foundation | Claude Awareness Program

ACHIEVEMENTS & ADDITIONAL

- **Achievements:** Winner - Roborace Competition, ABHIVYAKTI (2020) | 2nd Position - Technical Quiz (2019–2020)
- **Languages:** English, Hindi
